About me

Aspiring UI/UX Designer on a journey of continuous learning and growth. Passionate about creating user-centric designs that solve real-world problems. Exploring the world of design through user research, wireframing, and prototyping. Eager to collaborate, innovate, and craft experiences that make a difference.

Experience

Junior UI/UX Designer | CocoGrid, Mangalore

July 2024 - Present (Promoted from UI/UX Design Apprentice)

- Designed a creative Design Meetup website, taking it from research and wireframes to high-fidelity interactive prototypes, developer handoff, and design QC.
- Designed 8+ responsive websites for Swiss clients across different categories using a no-code website builder.
- Designed the Design Meetup Management Portal, creating user flows and wireframes for user management, emailers, and forms, helping streamline internal workflows.
- Contributed to the development of a reusable design system, establishing components, variables, styles, and guidelines for consistent product design.
- Improved the daily effort logging flow in the company's project management tool, simplifying the user experience.
- Contributed to a SaaS application redesign and multiple company landing pages, including design-to-development workflows using Figma MCP.
- Designed a scalable and customizable Figma template for the company's marketplace, establishing reusable components and design patterns that support consistency across different product use cases.
- Contributed to Design Quest marketing, creating social media creatives, posters, video concepts, scripts, and promotional videos.
- Defined AI-assisted design workflows to streamline client requirement documentation and early-stage design exploration.
- Converted Figma designs into functional web interfaces using the Figma MCP Server and Antigravity, bridging the gap between design and development.

Education

Diploma in Computer Science and Engineering

Karnataka (Govt) Polytechnic, Mangalore (67.83%) - 2022

PUC Science (PCMC)

Sri Gurudeva PU College, Belthangady (72.33%) - 2019

Interests

Sketching
Watching Movies, Series, Anime
Reading Books
Playing video games

Skills

User Research
UI Design
Interaction Design
Wireframe
Prototyping
User Flows
UX Audits
Vibe Coding
Design-to-Code

Tools

Research & Design

Figma, Miro, Figjam

Code

Visual Studio, Figma MCP
